### Death of Mrs. Marsalis

Wednesday night at 9:30 o'clock, Mrs. C. W. Marsalis succumbed to the call of the Grim Reaper after a brave struggle against a cancer of over five months during which time she revived but her strength waned until the pangs of death conquered. With her at the end were her husband and two children.

Mrs. Marsalis was born in Marshall, Mo., forty-six years ago and was united in marriage 23 years ago to C. W. Marsalis. To the union were born two children, Neily and Miss Jennie. Fourteen years ago she came with her family to Lordsburg where she has resided ever since.

Mrs. Marsalis has been actively connected with church work all her life and in her daily life lived the teachings of her Savior, never passing an opportunity to help the needy. Her cheerful disposition made her a friend of everyone and the entire community was bereft when word of her death was received. Beside her immediate family she is survived by two sisters and a brother. Funeral services were held from the Marsalis residence yesterday afternoon and interment was made in the local cemetery. Rev. J. A. Land pronounced the last rights over the body, in a beautiful sermon of comfort and eulogy. Hundreds of friends paid last respects to the deceased.

### MINES AND MINING

#### 85 COMPANY IS MAKING IMPROVEMENTS

The 85 Mining Company is having a concrete reservoir built in the canon northeast of the mine in order to conserve a water supply for drinking purposes and general utility. Jack Heather is doing the work. Mine water will be stored in the dam.

The new store at the 85 camp is nearing completion. Walter Intertrien, a brother to Manager A. J. Intertrien, will have charge of the store. C. L. Sullivan will have charge of one of the departments. Purchases are being made by the company of a large stock of goods for the store and it is possible that it will be opened for business by the first of October.

The 85 mine is shipping the largest tonnage of ore ever known to the camp, over the new spur, and is developing immense new ore reserves. The camp has seen no labor trouble and progress and initiative is evident on all sides of the big mine.

#### STRIKE ON AT CLIFTON

The pending strike of all labor union men at Clifton, Morenci and Metcalf, descended Saturday night as a result mining, milling and smelting is paralyzed in the district. Nearly 5000 men are out on the strike. The Western Federation of Miners have been organizing in the district and it is understood that the miners are now seeking a 15 per cent raise in wages. They are now being paid on the graduated scale regulating the price of copper.

Later reports from the district are to the effect that the companies are standing pat, which dispels any anticipation for an early settlement.

There has been to date, no malice on the part of the strikers and the district is reported to be none other than "dead."

Warnings were issued in Lordsburg for all laborers to keep away from Clifton and Morenci.

#### Anderson and Brown, operators of the lead concentrator at the Waldo mine, have ceased milling and are now going to work at unwatering shafts. As soon as this work is completed they will do extensive mining of carbonate-lead ores. The surface ore on the Waldo has been too hard to be successfully crushed and milled, so the operators will renew their efforts on the deeper ore.

#### Y. P. Yates, president of the Eighty-Five Mining Company, and president of the Berlin Machinery Company, of Beloit, Wis., was a Lordsburg visitor this week looking after important business of the 85 Mining Company, involving a pending transaction for the proposed purchase of other properties in the Virginia mining district. Mr. Yates left yesterday for the Pacific coast.

#### The civil engineers of the Arizona and New Mexico railway have packed up and left for the north, having completed their work for the spur to the 85 mine. Mr. Lynde of the crew has made a number of warm friends during his stay here and all regret to see him leave.

#### DUNCAN POSTOFFICE ROBBED

Yeggmens blew open the safe of the Duncan, Ariz., postoffice on Monday night, securing about \$600 value in watches and diamonds belonging to J. L. T. ### BAPTISTS HERE, REVIVAL FOLLOWS

#### Commencing yesterday afternoon at two o'clock the convention of the Southwest Baptist Association began at the local Baptist church. Representatives from the churches in all parts of the southwest are in attendance and are being entertained by the members of the Lordsburg church. The convention will last until Sunday and there will be three sessions daily until then. The first begins at 10 o'clock a. m., the second at 2 p. m., and the third at 8 o'clock p. m. The general routine work of the association will be taken up and many addresses will be made for the betterment of the Southwestern Baptist churches.

#### Immediately following the convention a three weeks' revival will begin at the church. Rev. L. O. Vermillion, a well-known Baptist, will be in charge of the meetings, and Miss Elizabeth Garrett, one of the most talented vocalists in the southwest, will be the singer. The meetings will be held at the Baptist church every night at eight o'clock, and it is planned to have morning sessions at 10 o'clock.

#### Rev. L. O. Vermillion is one of the most successful evangelists in the west and has had wide experience in New Mexico. He has a good delivery and is a very entertaining speaker.

#### The singer, Miss Garrett, needs no introduction in New Mexico. She has captivated thousands with her beautiful voice, and was one of the attractions at the San Diego Exposition, where she gave concerts in the New Mexico building. Miss Garrett is the daughter of the late Pat Garrett and has studied music in some of the largest conservatories of the United States. The people of Lordsburg should not miss one opportunity to hear her sing.

#### POWER PLANT RECEIVES NEW ENGINE

The new Bessemer 100-horsepower facilities and rank it with by the Lordsburg Power Company, arrived here Monday, and has been unloaded at the plant. The engine is one of the most modern ever brought to this section and will give the local company excellent power facilities and rank it with the best in the southwest. The engine is good-looking and is one of the most solid built pieces of machinery of its type. Practically all the larger moving parts of the engine are encased.

By the first of the next month Mr. Ritter expects to be furnishing the town with water, having made a final test of his pumps this week.

The new engine is being set up as rapidly as practicable. With the engine there arrived a new Westinghouse generator and several pieces of machinery for the ice department. The generator, while of good voltage, is not a heavy enough piece of machinery for the big engine and will be exchanged for a larger type. With the new equipment the local power company will soon have one of the best plants in New Mexico.

#### BIG BILL AT STAR

Carlyle Blackwell in "The Spitfire," a melodramatic Paramount farce of laughs and thrills will be the attraction at the Star Theatre tonight (Friday). The plot deals with the theft of a yacht, a case of jewels and a heart and has been produced more than one thousand times on the stage. Those who enjoy a thriller and a good laugh should not miss tonight's show. The name Paramount guarantees it.

Saturday night a special Keystone comedy and a drama feature will be shown at low prices.

Another one of the popular Mutual Masterpieces will be shown on Sunday night: "The Cup of Life," a five part masterpiece with Beanie Barriscale in the title role. This is another Mutual picture with a great moral lesson. It is a graphic portrayal of the lives of two sisters, one content with home and the other with society.

#### ISSUES CHALLENGE

Tommy Nelson, the 115-pound demon of Texas, issues a challenge through the Western Liberal to meet any oncomer at his weight. Nelson has met such boys as Sam Johnson, Kid Comcha and Pack Peters. Nelson will fight here or at Hachita or Silver City.

John Lowenbruck, a well-known cattle man, and Lanning Bacon were captured by bandits about 70 miles south of Hachita last week and held for \$2,000 ransom. The men were attacked en route to Panuelo, Mexico, to buy some cattle. Bacon was sent back to El Paso to get the wherewithal and Lowenbruck was held by the Mexicans. Later Lowenbruck escaped while his guard slept and walked twenty miles to the border, arriving in El Paso Sunday evening.
